

INF1343, Winter 2012, Week 1 Exercises

*Those exercises will **not** be graded but similar questions and problems may appear on quizzes and the exam.*

Exercise 1

Use the “persona” table in the “starwars” database on the database server to answer the following questions:

- What is Yoda’s size?
- What is the name of the character whose occupation is “bounty hunter”?

Use commands “describe persona;” to see the list of columns in the “persona” table.

Exercise 2

Use the “world” table in the “starwars” database to answer the following questions:

- What percent of Naboo is covered with water?
- ~~What are the 3 smallest worlds by diameter?~~ *(This question cannot be answered with the material we covered in the first class and was be removed.)*

~~(Type “use world;” to switch to the world table.)~~

Exercise 3

Use the “pet” table in the “menagerie” database on the database server to answer the following questions:

- What are the names of pets owned by Harold?

(Type “use menagerie;” to switch to the menagerie database.)

Exercise 4

Use the “City” table in the database “world” to answer the following questions:

- What is name and population of the one city in the country of Tuvalu? (You will need to “describe City;” to see the list of columns in this table. The code for Tuvalu is “TUV”.)

(Type “use world;” to switch to the world database.)
